

Our High-Level AI and Data Strategy Framework

What does an AI and Data Strategy look like?

Where should we focus?

Who needs to be involved? Do we need support?

How does it align with our other strategic pillars and Mission?

“Given how fast things are changing, we need to stay aware of the technology, legislation, policies, and risks. This means a continuous focus on AI Strategy and Policy”

Christopher Foster-McBride, Founder, AI for the Soul

Ready to start? Be guided by the Lord!

Steps to Open and Structured Discussion

1. **Respectful Communication:** Encourage active listening and thoughtful speaking.
2. **Diverse Perspectives:** Welcome a range of views on AI and Christianity.
3. **Informed Discussions:** Provide background on AI and Christian beliefs.
4. **Structured Conversations:** Have a knowledgeable moderator to guide the conversation, ensuring that it remains on track and is respectful.
5. **Ethical Focus:** Examine AI implications through Christian ethics.
6. **Community Building:** Hold regular meetings and forums.
7. **Personal Reflection:** Encourage reflection on beliefs and values.
8. **Address Concerns:** Debunk myths and acknowledge fears about AI.
9. **Accessibility and Inclusivity:** Ensure easy access to materials that everyone can understand.
